

“What works?”

International University Week

April 23rd - 27th, 2012

University College Lillebaelt – Department of Social Work

Department of social work, Odense – University College Lillebaelt will be hosting one of the International University Weeks during April 23rd – 27th 2012.

Invited are in special students, researchers and lecturers from our partner institutions in SocNet98.

Our chosen theme for the week is ***“What works?”***

We call for success stories ranging from methods in social work to fields of professional practice and interesting lectures.

The International week will include cultural/social activities and excursions to social work institutions.

We hope to welcome 50 international students together with our hosting students, as well as about **10** visiting lectures for workshops.

To be able to plan and to make a clear offer to the participating students, we ask all incoming lecturers to send us a workshop title and a short abstract of four or five lines about the workshop that you will offer in Odense before **November the 15th**.

We kindly ask lecturers and workshop leaders to send an abstract for a lecture/workshop to Annie Klint ankl4@ucl.dk before **November the 15th 2011**.

We are looking forward to having you as our guests in Odense.

Kind regards

Annie Klint

Department of social work, Odense
